

QMULUS

THE NEXT EVOLUTION OF PROTHERM 9800

A MORE POWERFUL, TECHNOLOGY DRIVEN IIoT PLATFORM

SMARTER INSIGHTS, STRONGER OUTCOMES

QMULUS builds upon the proven expertise of Nitrex solutions, including Protherm 9800, to offer a wider range of new features and capabilities that align with today's business needs and adapt to changing demands.

UPGRADE TO QMULUS

QMULUS succeeds PROTHERM 9800, building on its key strengths and capabilities to provide greater value to customers, such as:

NEXT-GENERATION SCADA:

- Production logs
- Chart recorder
- Asset management
- Dashboards
- Remote access & control
- Recipe management
- API to orchestrated data
- Shop Layout
- Parts & materials DB

- Statistics (alarms, consumptions, utilization)
- History & trends

SCALE UP WITH:

- Audit
- Quality
- Simulators
- Data analytics and machine learning

SWAP PROTHERM 9800 FOR QMULUS

QMULUS

Upgrading to QMULUS improves efficiency, decision-making, and competitiveness without adding complexity.
